An Addition to the City of Edmond, Oklahoma County, Oklahoma.

KNOW ALL MEN BY THESE PRESENTS:

Simon & Gebron Enterprises, Inc., an Oklahoma Corporation, hereby certifies that it is the owner of and the only corporation or corporations, partnership or partnerships, person or persons having any right, title or interest in and to all of the land embraced and included in the above described property now platted into lots, blocks, streets and easements as shown on the plat of PEBBLE CREEK SECOND ADDITION, recorded in Book 50 of plats at Page 20 of the records of Oklahoma County, Oklahoma.

We further certify that we have caused said tract of land to be surveyed into blocks, lots, streets and avenues, and have caused a plat to be made of said tract, showing accurate dimensions of lots, set-back lines, right-of-way, widths of streets and easements for utilities and storm drainage. We hereby dedicate to public use all streets and avenues within the subdivision and reserve for installation and maintenance of utilities the easements as shown on the recorded plat. All lands so dedicated to public use are free and clear of all encumbrance.

PROTECTIVE COVENANTS

For the purpose of providing an orderly development of the entire tract, and for the further purpose of providing adequate restrictive covenants for the mutual benefit of ourselves or our successors in title to the subdivision of said tract, we hereby impose the following restrictions and reservations to which it shall be incumbent upon our successors to adhere.

1. All lots within the subdivision shall be known and designated as residential building plots. No structures shall be erected, altered, placed or permitted to remain on any residential building plot other than one detached single-family dwelling not to exceed two and one-half (2-1/2) stories in height and a garage for not more than three (3) private automobiles and other outbuildings incidental to residential use of the plot.

2. No building shall be erected, placed or altered on any lot located in the above described addition until after the building plans, specifications and plot plan showing the location of such building have been approved in writing as to conformity and harmony of external design with existing structures in said subdivision, and as to location of the building with respect to topography and finished ground elevation, and with respect to side lot and front building set-back lines, by Richard R. Simon, Laxman P. Godhania and Richard V. Simon or their duly authorized representatives or successors. In the case of death or resignation of any member, the Owner shall have the authority to appoint a successor to fill any vacancy or vacancies created by the death or resignation of any member, and said newly appointed member or members, shall have the same authority hereunder as their predecessors to approve or disapprove such design or location as above set forth. If the aforesaid committee, their authorized representatives or successors, fails to approve or disapprove such design and location within fifteen (15) days after building plans, building specifications, and plot plan have been submitted to them, or in any event, if no suit to enjoin the erection of such building, or the making of such alterations has been commenced prior to the completion thereof, such approval shall not be required and this covenant shall be deemed to have been fully complied with. Said committee, their authorized representatives or successors, shall act and serve until December 31, 2000 at which time the then record owners of two-thirds of the lots in Pebble Creek may designate in writing, duly recorded among the land records, their authorized representatives who thereafter shall have all of the powers, subject to the same limitations, as were previously delegated hereto to the above named committee.

3. The exterior walls, excluding doors and windows, of all single-family residences constructed on any lot or plot in said addition shall be at least forty percent (40%) brick, brick veneer, stone or stone veneer construction. Where a gable-type roof is constructed, the area of the gables extending above the interior room ceiling height may be excluded from the square feet area in determining the footage of the exterior walls of said main residential building.

4. No building shall be located on any lot nearer to the front lot line or nearer to the side street line than the minimum building setback lines shown on the recorded plat or minimum required by the City of Edmond. In any event, no building shall be located on any residential plot nearer than twenty-five (25) feet to the front lot line, or further than fifty (50) feet from the front lot line, or nearer than twenty (20) feet or twenty percent (20%) of the

lot depth, whichever is the lesser, to the rear lot line. In no event shall the distance between buildings be less than ten (10) feet. No dwelling shall be located nearer than five (5) feet to a side lot line. For the purpose of this covenant, eaves, steps, and open porches shall not be considered as a part of the building, provided, however, that this shall not be construed to permit any portion of a building on a lot to encroach upon another lot. The finished floor elevations shall be as per recorded plat where applicable.

5. No dwelling shall be erected or placed on any building lot which has an area of less than six thousand eight hundred (6,800) square feet; nor shall any dwelling be erected or placed on any lot having a width of less than forty-eight (48) feet at the front minimum building setback line.

6. The ground floor of the main structure, exclusive of open porches and garages, shall be not less than 1,350 square feet, measured over exterior masonry walls.

7. Easements for installation and maintenance of utilities and drainage facilities are reserved as shown on the recorded plat and designated as Drainage and Utility Easements. Within these easements, no structure, planting or other material shall be placed or permitted to remain which may damage or interfere with the installation and maintenance of utilities, or which may change the direction of flow of drainage channels in the easements. The easement area of each lot and all improvements in it shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or utility company is responsible. The easement for Phillips Petroleum Company as shown on plat, no fence construction on the easement.

8. No business, trade or activity shall be carried on upon any residential lot. No noxious or offensive activity shall be carried on upon any lot, nor shall anything be done thereon which may be or may become an annoyance to the neighborhood.

9. No structure of a temporary character, trailer, basement, tent, shack, garage, barn, or other outbuilding shall be used on any lot at any time as a residence either temporarily or permanently.

10. Moreover, no automobile, truck, trailer, tent or temporary structure of any nature whatsoever shall ever be temporarily or permanently parked, located, or otherwise maintained on any plot; it is further restricted that no automobile or other vehicle may be repaired on any lot unless such repair is done in an area totally concealed from any street or streets; provided however, that it is not the intention of this paragraph to exclude the temporary parking of passenger automobiles on any portion of the garage driveway that is located in front of such front building limit or setback.

11. Notwithstanding the restrictions imposed by Paragraph 11, but subject to those imposed by Paragraph 13 herein, boats, trailers or other vehicles which are not normally used as everyday transportation may be kept on the premises provided that they are totally concealed from the streets and are not visible from neighboring property. Under no conditions may a trailer of any type be occupied, temporarily or permanently, at a residence except during the construction period and then only by a workman or watchman.

12. No overnight parking of vehicles larger than one-half ton is allowed on or near any lot.

13. No fences shall be installed on the front portion of any lot in this subdivision between the front lot line and front building setback line. All fences shall be set back at least two (2) feet from the front of any building structure upon which the fences may abut.

15. No sign of any kind shall be displayed to the public view on any lot except one sign of not more than five (5) square feet advertising the property for sale or rent. Signs used by a builder to advertise the property during the construction and sales period shall be permitted and such signs shall not be subject to any size limitations.

16. No trash, ashes or other refuse may be thrown or dumped on any vacant lot. Each owner of a vacant lot is required to keep such lot in presentable condition or the other lot owners may, at their discretion, mow such lot, trim trees, remove trash or refuse, and levy a lien on said lot for the cost involved.

17. No lot owner shall demand or require the furnishing of electric service through or from overhead wire facilities so long as electric service is available from an underground primary and secondary distribution system; nor shall service other than 120/240 volt, single-phase service be demanded.

18. It shall be the responsibility of each lot owner, before a residence is occupied, to construct a sidewalk between those points where the side property lines extended would intersect the curb. In the case of corner lots, it shall be the responsibility of each lot owner to construct the sidewalks in front and on the sides of the lot. The sidewalks shall be constructed adjacent to the curb in conjunction with the driveway(s) and in accordance with the current City of Edmond design standards as prepared by the Department of Public Works, Engineering Division. Current standards are shown on Drawing No. 5-300 dated August 25, 1971.

19. No leaching cesspool or septic tank shall be constructed and/or used on the above described lots.

20. No existing erected building or structure of any sort may be moved onto and/or placed on any of the residential building plots in this addition, it being the intention of this covenant to definitely prohibit the moving onto and/or placing of existing residential structures on any of the lots.

21. After initial possession by owner/occupant no building material of any kind or character or construction equipment can be stored on any lot unless totally concealed from any street or streets.

22. These covenants are to run with the land and shall be binding on all parties and all persons claiming under them until the first day of June, 1992, at which time said covenants shall be automatically extended for successive periods of ten years unless an instrument signed by a majority of the then owners of the lots has been recorded, agreeing to change said covenants in whole or in part.

23. If the parties hereto, or any of them or their heirs or assigns shall violate any of the covenants herein, it shall be lawful for any other person or persons owning any real property situated in said development or subdivision to prosecute any proceedings at law or in equity against the person or persons violating or attempting to violate any such covenant and either to prevent him or them from so doing or to recover damages or other dues for such violation.

24. Invalidation of any one of these covenants by judgment or court order shall in no way affect any of the other provisions which shall remain in full force and effect.

Dated this 18th day of July, 1983.
